

Go2mobile Datasheet

What is Go2MMS?

Go2mms allows your audience to send in pictures, audio and short audio video clips from their mobile phones to be viewed online.

Go2mms allows you to:

- Receive pictures, audio and short audio video clips from mobile devices
- View MMS pictures online in real-time
- Move selected pictures to a Shortlist
- Rotate Images
- Archive for later reviewing
- Reply to incoming entrants via SMS

Your audience can send in pictures of their weekend activities and participate in picture/audio/video competitions.

Go2MMS - What You Get:

- High speed message delivery
- Online message tracking and archive search facility via our Member Zone*
- Premium telephone, email and fax support as standard
- Full back-up systems in place for peace of mind
- 24/7 monitoring of all systems

Go2MMS System Requirements:

Go2mobile host and manage the advanced infrastructure for you. All you need is a normal internet connection and a web browser to receive and store images, and reply to senders.

Key Go2mobile Benefits:

- Easy Implementation
- Plug and Play – We can have you up and running within 24 hours

Go2mobile was the first company to offer corporate mobile messaging in Ireland, and have invested heavily in research and development, which ensures that your company is continuously kept up to date with mobile technologies.
